## Childhood

Play is often considered as if it were some relief from serious learning. But, the fact is that, for children, play is a means of serious learning. Play is really the work of childhood. Blessed be childhood, which brings down something of heaven into the midst of our rough earthliness. Childhood is not from birth to a certain age and at a certain age. The child grows and puts away childish things. Childhood is the kingdom where nobody dies. There is a garden in every childhood, an enchanted place where colours are brighter, the air softer and the morning more fragrant than ever again. At Sou. Vijayadevi Yadav English Medium School, we strive to help our children cherish and protect their childhood.

Care

If there is anything we wish to change in the child, we should first examine it and see Caring can be learned by all human beings, can be worked into the design of every life, meeting the individual need as well as the prevalent need in the society. A child is in need of protection against the conduct of others or indeed of himself, Which may cause him injury when he is beyond the control and protection of its parents. At such times, the teacher is in the position to exercise the authority over him and afford him, in the exercise of reasonable care, protection from injury. Special care is always taken of every child at every step in our school.

Discipline is one of the basic requirements of a civilized life. If everything goes on in a definite routine and the discipline is maintained then there would not be any chaos anywhere. Discipline is the backbone of the national unity. Citizens of disciplined nations can work more smoothly and are filled with the spirit of unity, brotherhood and co-operation. However, discipline does not mean strictly, the withdrawal of personal liberty and authority; on the other hand it provides one with the guideline to use its freedom in a right manner. Discipline is important even in domestic life. If children are grown up in an atmosphere of love and brotherhood, they tend to be good citizens.

Discipline in schools may reduce the violence and vandalism and help the students to focus better on their studies and career.

We are aware to the fact that disciplined school children are always orderly and punctual in their habits. That is the reason why we give priority to the discipline in our school. Many of us are unaware of the fact that Discipline comes from within not from outside.

## A Word from the Chairperson

Welcome to a School of difference! At Sou. Vijayadevi Yadav English Medium School, we value your children as the world of tomorrow. So when it comes to helping them with the academic learning or the extra-curricular activities, we always deem them as important as the small sapling that we plant in a garden. We create the necessary conducive soil for the growth of that sapling. We give your children the best of environment to grow and develop. Just as the sapling requires constant nurturing of water, proper manure and sunlight. So our teachers in the school educate your children with the right kind of knowledge and learning that is deeply value based and anchored in the virtues of love, mutual respect and growth.

We also believe that knowledge is not just filling of the bucket, but rather as the root meaning of the word 'education' says, 'drawing out'. We know right education is motivating, encouraging for a growth from inside-out. The necessary skills and talents hidden in your children are drawn out, shaped and promoted so that the little sapling matures and brings out flowers and fruits that attract and give joy to everyone around. We believe our real work as teachers, mentors and guides would be complete, when the children of our school will become tomorrow's architects who will shape the nation and the universe into a place that God sees and smiles upon.

This seems to be a Herculean vision to attempt. But as Robert Browning said, "A man's reach should exceed his grasp or what's heaven for." The first requisite to do anything worthwhile is to dream big and then the next is to follow it by worthwhile actions. We also realize that anything worthwhile cannot be achieved unless a proper synergetic effort backs it up in form of cooperative spirit from all ends. So we urge you the parents, mentors to join the hands of the Management, the teachers, staff and well wishers so that we together can give your children the gift of realizing his or her dream of a better world.

Best Wishes.

Mrs. Vidya Gulabrao Pol  
Chairperson  
Sou. Vijayadevi Yadav English Medium School

## Message from Principal

Vijayadevi Yadav English Medium School, you will always come across excellence as the hallmark in everything that we do. We believe that we are in the noblest profession of shaping your child's future. Vijayadevi Yadav English Medium School, we the Management, teachers and staff commit ourselves to excellence in academics, extra-curricular and other activities. We try to take a different path when it comes to take your child through the rigors of the academics. We involve activities, fun, play and learning as a whole lot that goes on to shape your child's academic inclination as well as the whole persona. We strive to involve all the sensory functions of your child in learning. As the child touches, feels, experiences, sees and tastes, he or she absorbs more and learns better. We also encourage the spirit of enquiry and inquisitiveness in the lines of the Socratic Method. So you will find that our teachers encourage rather than discourage questions and debates from the students.

You will also find the touch of excellence in the infrastructure, the airy and well ventilated classrooms, the adequate playground and hygienic standards maintained at the school.
