### Parent-Teacher Association:

School, teachers and parents play vital role in holistic development of the child. Parents are the first mentor of the child and the teacher is the second. Both have an immense contribution and responsibility in shaping child's personality.

### **Initiatives taken for Environment Conservation**

Various activities are conducted to highlight the importance of nature and for the conservation of environment from degradation. Special assemblies are conducted based on the themes such as Save Water: Every Drop Counts, Rainwater Harvesting, Solar Energy, Waste Management, etc.

The school has a beautiful green campus. The students and parents contribute to make it greener by abiding to the school policies. The students are appealed to gift sapling on their birthday. The same sapling is planted by the child and is taken care later. There is tremendous response from the students for this innovative move.

“Let’s nurture the nature so that we can have a better future.” To prove this wise saying true, we have an exceptional Tree Adoption Policy. We have planted numerous trees at different locations in and around the vicinity and we do take care of them regularly. Environmental issues have been the key focus of our School. The government has taken various initiatives to sensitize schools and students to emergent environmental concerns like energy conservation, environmental protection, plantation, plastic pollution etc. Our school is actively engaged in protecting environment in all its aspects.

Student Orientations are conducted to create awareness to Ban Plastic, Planting trees, Guest lectures, Eco Club activities etc. Students, teachers and parents are appealed to avoid using single use plastic under the Say No to Plastic campaign. Rain water harvesting is conducted. We are striving to promote conservation of environment in the campus through rain water harvesting, segregation of waste at source, recycling of organic waste, proper disposal of waste, use of energy saving equipment’s, greening of campus, use of solar energy. We are also inculcating education and awareness among children, related to environmental conservation and its protection. We allow each student (all classes) to plant a sapling wherever convenient, whether in school premises or at home or in the boundaries of the playgrounds or any other place which is approachable to them. Students present saplings to school on their Birthdays. We are having discussions in class about the variety/species of the tree/sapling planted, its benefits, its occurrence, the kind of looking after it requires etc. This will help the students relate to the activity better. Also many cultural programs were arranged related to environmental protection. ‘Vriksh Raksha Bandhan’ is a unique attribute of our school wherein students tie Rakhis to trees and vow to protect them forever. Vansanvardhan Diwas is celebrated to encourage the conservation of forests. Students gift a sapling to the school on their birthdays instead of chocolates. Moreover, the guests and invitees are felicitated with a sapling as a token of love and appreciation.
