## CURRICULUM

And important part of our curriculum is 'Understanding'. We have a balanced curriculum which has fine blending of intellectual, social, emotional, physical, spiritual and moral development along with regular studies. It doesn't matter whether your child is good at academic, sports, music, the visual or the performing arts. We are in position to develop their strength and explore potential to the world class level. Our learner - centric & child centric pedagogy focus on each student based on their individual needs in terms of their intellectual, social, emotional, physical, spiritual & moral development. Every child needs adequate individual attention as so our ratio is 1:15 which is the key to success of our curriculum.

The curriculum is engaging, relevant, challenging and significant. The focus is not just on knowledge, concept and skills but beyond it. Deliberate efforts are being taken so that, the student can be polished and groomed towards becoming truly global minded people by focusing on the personal development of each child. Various activities are been provided to develop their attitude. Even ample opportunities are being made available to learn and exhibit their creativity. Continuous and Comprehensive Assessment is been adapted and linked directly to learning. Moreover, all the students are involved in self and peer evaluation alongside a variety of assessment tools.
